FARMAN KHAN

FULL-STACK SAAS & AI SYSTEMS ARCHITECT

Email: farmanwrites10@gmail.com
WhatsApp: +92 329 9736086
Portfolio: fktech.site | **Location:** Remote / Global

Executive Summary: High-velocity Full-Stack & Systems Architect with 3+ years of experience engineering high-concurrency SaaS applications, sub-second web platforms, and automated WhatsApp/AI workflow engines. Trusted by **50+ active global businesses across 12 countries**. Specialized in modern Next.js 16 architectures, distributed Node.js microservices, scalable database schemas, and conversion-optimized interfaces with sub-second Core Web Vitals.

CORE TECHNICAL EXPERTISE

Frontend Engineering: Next.js 16 (App Router, Server Actions, SSR), React 19, TypeScript, Tailwind CSS v4, Framer Motion, Three.js, WebGL interactive 3D canvas, responsive architecture.

Backend & Concurrency: Node.js (Worker Streams, Cluster), Python, REST & GraphQL APIs, Redis Queues, Webhooks, Baileys WhatsApp automation, FFmpeg multimedia pipelines.

Database & Cloud: PostgreSQL, MongoDB, Prisma ORM, Supabase, Firebase, query optimization, high-throughput caching layers, schema design.

DevOps & Infrastructure: Docker containerization, Linux/Ubuntu VPS administration, Nginx reverse proxies, SSL/TLS automation, GitHub Actions CI/CD pipelines, Vercel Edge.

FEATURED ARCHITECTURES & CLIENT CASE STUDIES

Qazi Cola Platform (qazicola.com)

Lead Systems Architect & Full-Stack Engineer | *Next.js 16, React, Tailwind, Vercel*

- Architected global e-commerce and brand platform dedicating 100% of profits to Palestinian relief missions.
- Achieved sub-second Core Web Vitals (98+ Google Lighthouse) using Next.js App Router, localized edge routing, and WebP asset pipeline.
- Engineered mobile-first bespoke fluid design with smooth micro-interactions and interactive product showcases.

InstantFlow SAAS (instantflow.online)

Distributed Systems & WhatsApp Engine Architect | *Node.js, Baileys, Redis, Rails, Docker*

- Engineered high-concurrency WhatsApp CRM & workflow automation engine with Node.js gatekeeper and socket pooling.
- Handled 50,000+ daily incoming webhook events with Redis task queues, multi-tenant isolation, and zero memory leaks.
- Automated FFmpeg audio/video transcode pipelines for instant multimedia messaging and CRM webhook synchronization.

Instant Growth Agency (instantgrowthdigitalagency.com)

Creative Engineering & Performance Architect | *Three.js, WebGL, Tailwind, TypeScript*

- Built high-velocity creative agency portal featuring dynamic interactive liquid grid canvas and conversion-focused funnels.
- Maintained 60 FPS animation performance and sub-800ms load latency driving international client acquisition.

MJ Group of Companies Portal (mjmarketingofficial.com)

Full-Stack Corporate Portal Engineer | *React, Vite, Tailwind CSS, Glassmorphism*

- Developed corporate enterprise portal with interactive real estate listing showcases and automated lead capture workflows.

PROFESSIONAL EXPERIENCE & ENGAGEMENT MODELS

FKTECH — Senior Systems & Full-Stack Architect

2022 – PRESENT | Remote / Global

- Direct partner to international startup founders and agency leaders across the US, UK, Europe, and Middle East.
- Deliver complete end-to-end engineering: Technical Architecture Blueprints, MVP Sprints, Production Deployments, and Retainers.
- 100% Code Quality Standard: Strict TypeScript, automated testing foundations, containerized deployments, and clean documentation.
